Schweizerische Gesellschaft für Pharmakologie und Toxikologie

Welcome

I am very pleased to invite you to the 2009 joint meeting of the affiliated societies of the Swiss society of pharmacology and toxicology.

As toxicologists and pharmacologists are involved in daily societal problem solving, this meeting is devoted to questions which may arise in relation to sports.

Performance is the engine in many areas of research and business. How does altitude modify it? Do we learn from pain perceptions during sports activities? What are the current methods and are new analytical methods needed? Is there a need to closely monitor sportsmen and women? Should we ban doping or compromise with it? Swiss experts, some of whom assume international responsibilities, have been asked to answer these questions in up-to-date state of the art lectures.

These questions have significance not only for specialists, but also for general practitioners and non medical sports actors.

All efforts have been made to give participants the opportunity to meet the experts and create a close and friendly atmosphere. This will be a really exciting conference.

Mitsuko Kondo Oestreicher
Chairwoman of the Swiss society of clinical
pharmacology and toxicology

The following sponsors accepted to support the conference financially while having no influence on the scientific content of the venue

Program Morning

- 9H00 Welcome address
- 9H15 Sports and Pain Modulation (*English*) – Isabelle Decosterd
maître d'enseignement et de recherche, cheffe de l'unité de recherche sur la douleur du département de chirurgie et d'anesthésie du CHUV
- 10H00 Altitude Influences on Sport Performances (*English*) – Urs Scherrer
professeur du département de médecine interne du CHUV
- 10H45 Telemonitoring via Textile (Biotex®) (*English*) – Jean Luprano
Deputy Division Head of the Systems Engineering Division at CSEM
(Centre Suisse d'Electronique et de Microtechnique, Neuchâtel, Switzerland)
- 11H15 Analytical Methods of Doping: Present and Future
Avenues, part I – n.n.
chef de section de recherche du laboratoire suisse d'analyse du dopage du Centre universitaire romand de médecine légale

standing Lunch [12H00 – 13H30]

After-noon

- 13H30 Analytical Methods of Doping: Present and Future
Avenues, part II (*English*) – Jean-Luc Veuthey
professeur de la Faculté des Sciences de l'Université de Genève, directeur du Laboratoire de Chimie Analytique Pharmaceutique
- 14H15 Doping Lists: How are they defined? (*English*) – Martial Saugy, directeur du laboratoire suisse d'analyse du dopage, membre de la commission de l'agence mondiale anti-dopage
- 14H45 Legal Issues on Doping Prescribing and Consumption in Switzerland and Abroad (*English*) – Corinne Schmidhauser
présidente du conseil de fondation Antidopage Suisse, championne du monde de Slalom à ski (1987)
- 15H30 Are the Detection Means Worth the Efforts? (*English*) – Bengt Kayser, professeur de la Faculté de médecine et directeur de l'Institut des Sciences du Mouvement et de la Médecine du Sport / Ecole d'éducation physique et de sport de Genève
- 16H00 Debate: Pros and Cons Regulation on doping Issues in Sports – Panel of Experts and Participants
- 17H00 End of Meeting
